Helpful Hints for Poster Presenters

1. You may only be the presenting author on one poster in the hall.
2. Caption your presentation with its title and author(s). All printing should be large enough and bold enough to be read from 3 feet away. Titles should be readable from 6 feet.
3. Arrange material in sensible fashion. Number each item or use arrows to indicate continuity. Bar graphs and line graphs are preferable to long columns of figures.
4. Consider the use of another color for emphasis. Dry mount photos, etc. on thin cardboard so that push pins will penetrate the poster boards. Push pins will be provided and must remain on the board for the next session.
5. Try not to present so much material that your poster appears cluttered. Practice briefly with your colleagues and/or students to eliminate unnecessary words.
6. In addition to your poster, you may have copies of your presentation as a handout during your scheduled authors present time.
7. The poster boards are the property of the decorating firm and are rented from them. Presenters will be responsible for any damages should they be permanently marred.
 - ***All posters must be removed by the time indicated above and may not be left in the display area. All unclaimed materials will be discarded. Please refer to the chart on the first page for set-up and removal times.***
 - Please note: Blank poster boards are unwelcome in the exhibit area. ***Failure to comply may make your abstract ineligible for a future poster session.***
 - ***New for 2019:*** Photography will be allowed in poster sessions with the permission of the poster authors. If a presenting author does not want to permit photographs, this will be indicated on their poster with a "no photos" sticker.
 - If for any reason you need to withdraw your poster, please notify the AES Office immediately via email at kaderabek@aesnet.org. In the subject line, please add "Withdrawn Abstract and your AES Poster ID Number."
